

Real-world study with Vivace Health

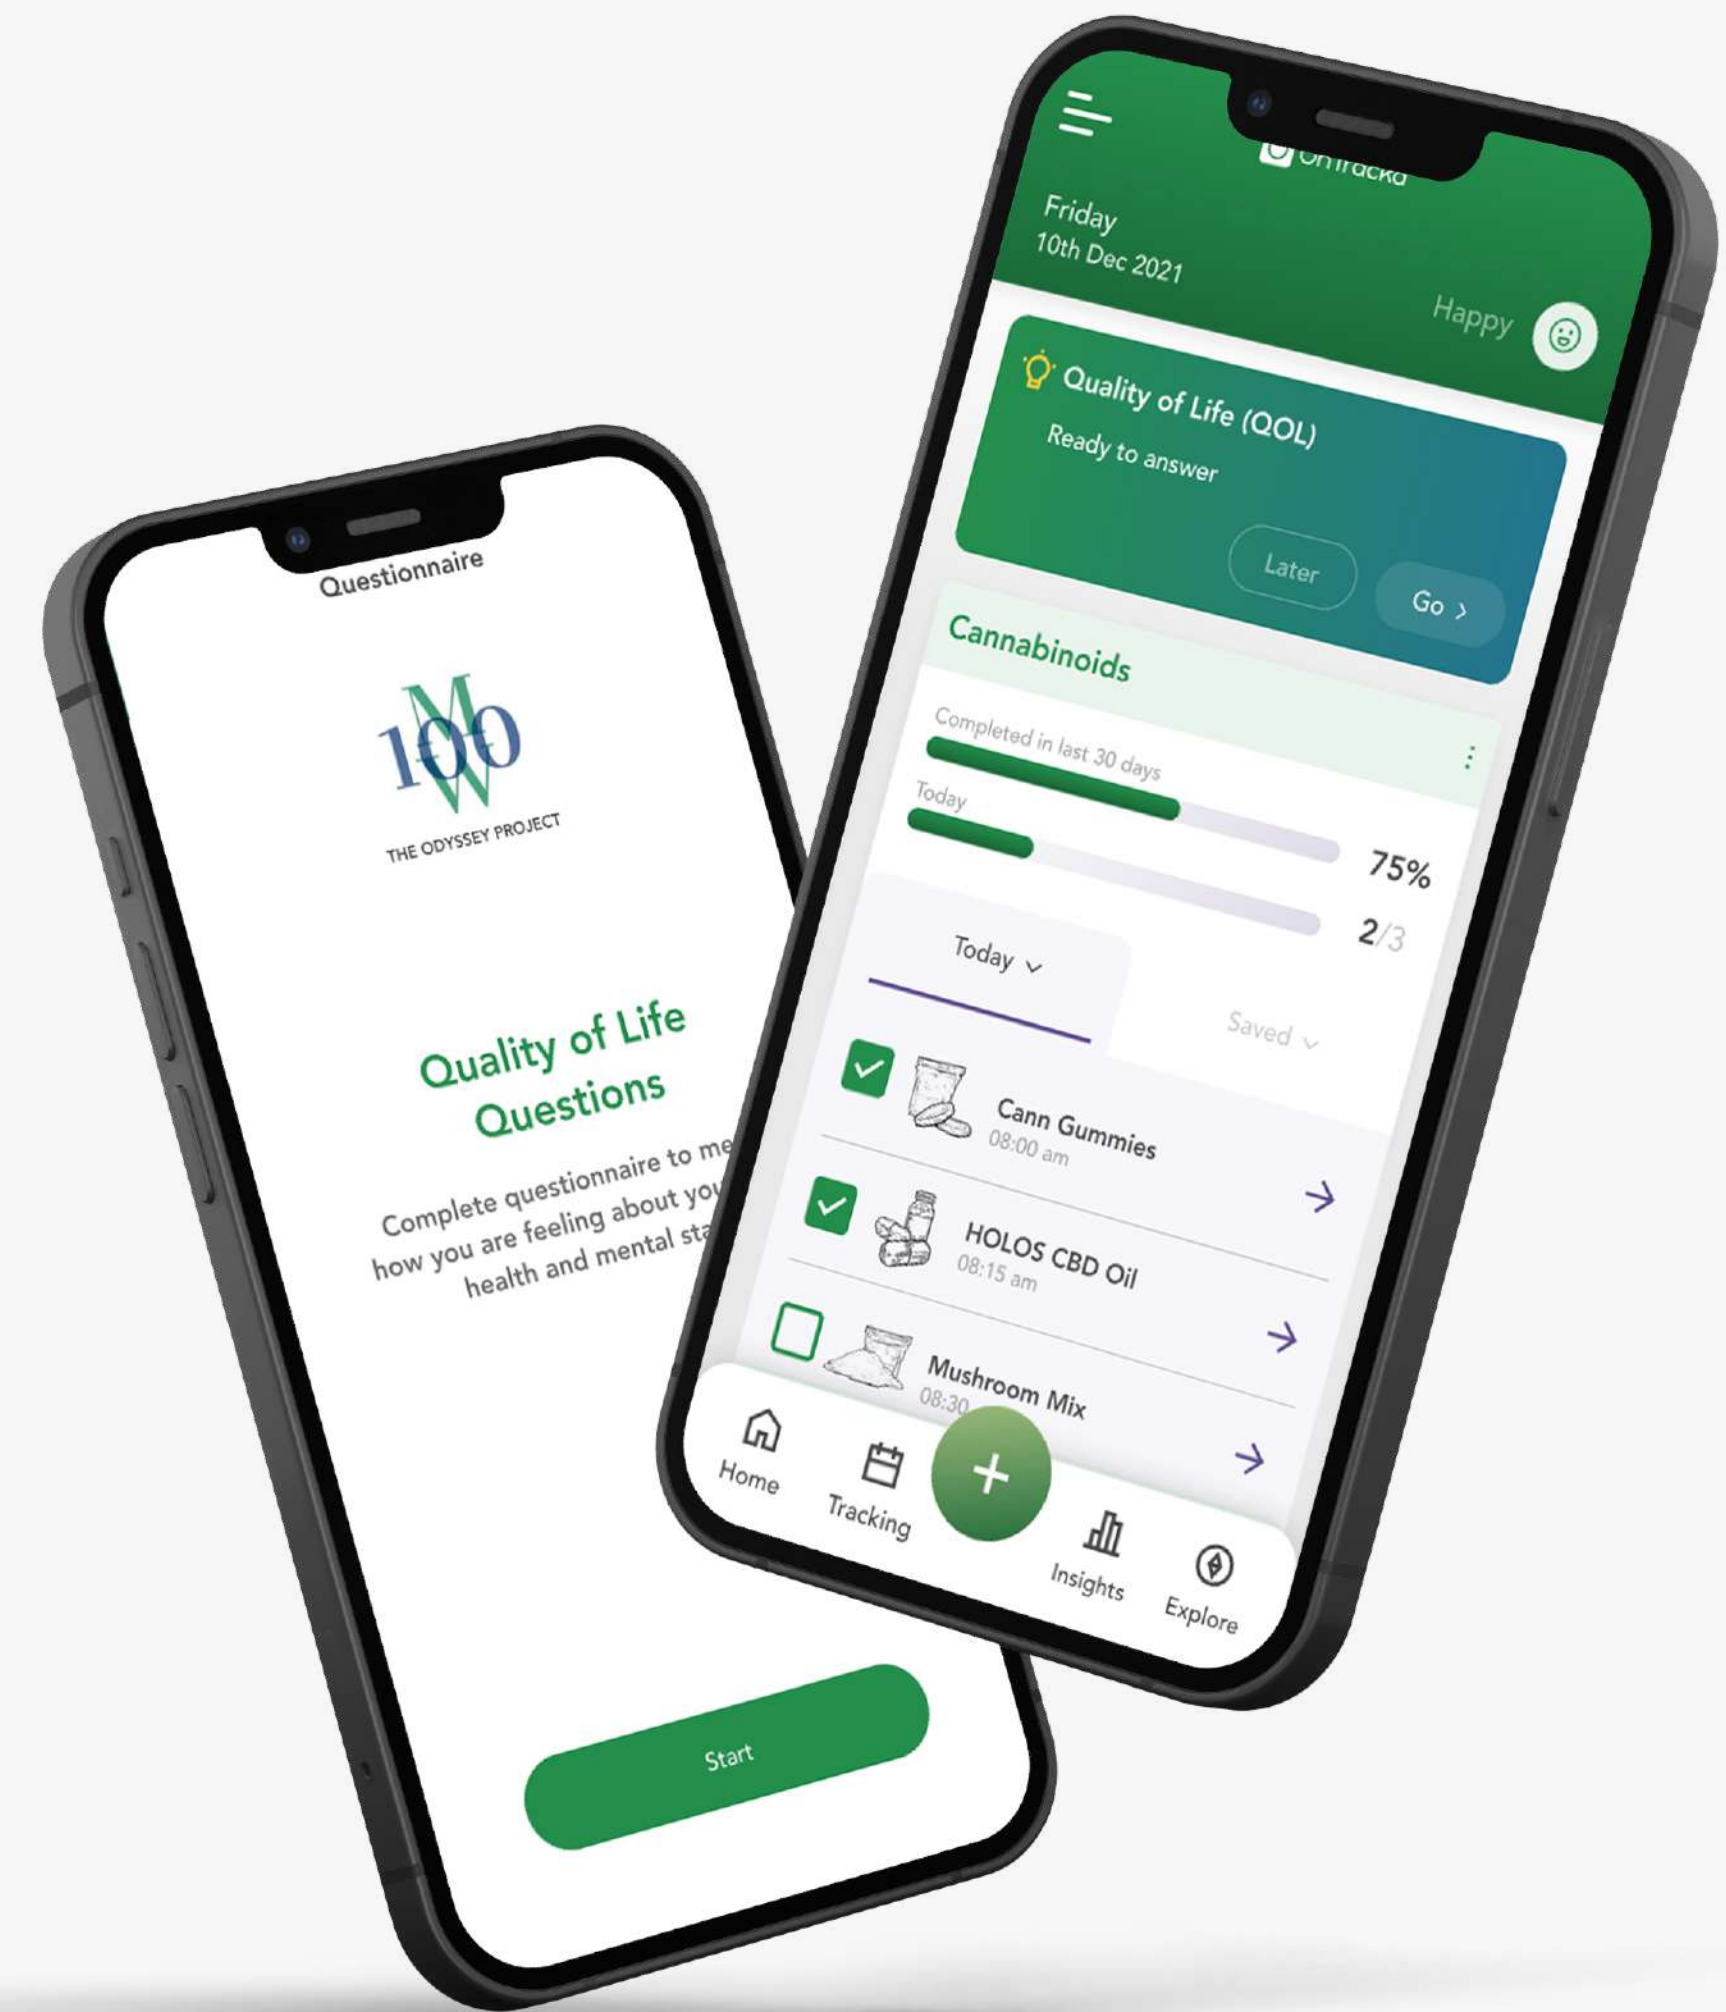

Powered by  OnTracka

Vivace Health, in partnership with OnTracka

Vivace Health has teamed up OnTracka, an Australian Software company that was created in a cancer ward at Westmead Hospital where forensic social worker and OnTracka Founder, Chad Walkaden was battling Terminal Stage IV Cancer.

OnTracka was created to give you an anonymous way of joining research studies on how Cannabis Medicines can be used for the prevention, treatment or maintenance of medical conditions, disease & mental illnesses.

In this booklet, you will be guided on how to use OnTracka to participate in the study that you complete to understand the safety and impact of integrating Cannabis into the care provided by your team at Vivace Health.

Welcome To

REAL-WORLD DATA STUDY

Information

Thank you for your interest in becoming a participant in a real-world study with OnTracka.

OnTracka is gathering early findings around the potential for cannabinoids to better manage medical conditions, diseases, mental illnesses, and improvements to the quality of life of patients and their family members.

You will have the option to participate in this voluntary six-month study and be asked to complete questions about your reasoning for taking Cannabis Medicines and your experiences with this and other medications that you take. You can withdraw from this at any time.

In this study, you will be asked to complete to validated instruments that are called The Insomnia Index Scale for measuring sleep disturbances, The Generalized Anxiety Disorders Scale (GAD-7) for measuring anxiety and the PHQ-9 which measures Depression. Also, you will be asked to use a titration tool that has been designed to capture the effects your Cannabis Medicine has on you. These measures will help monitor changes in your sleep quality, symptoms, anxiety and depression over time.

Be informed about the study and consent to being part of this

3/3

Please supply your name and email address to confirm your consent and interest in participating in this real-world study

Your name and email address will not be shared with anyone, ever.

Thank you

Your sign-up has been completed and there are now questions for you to complete inside the app.

Let's start

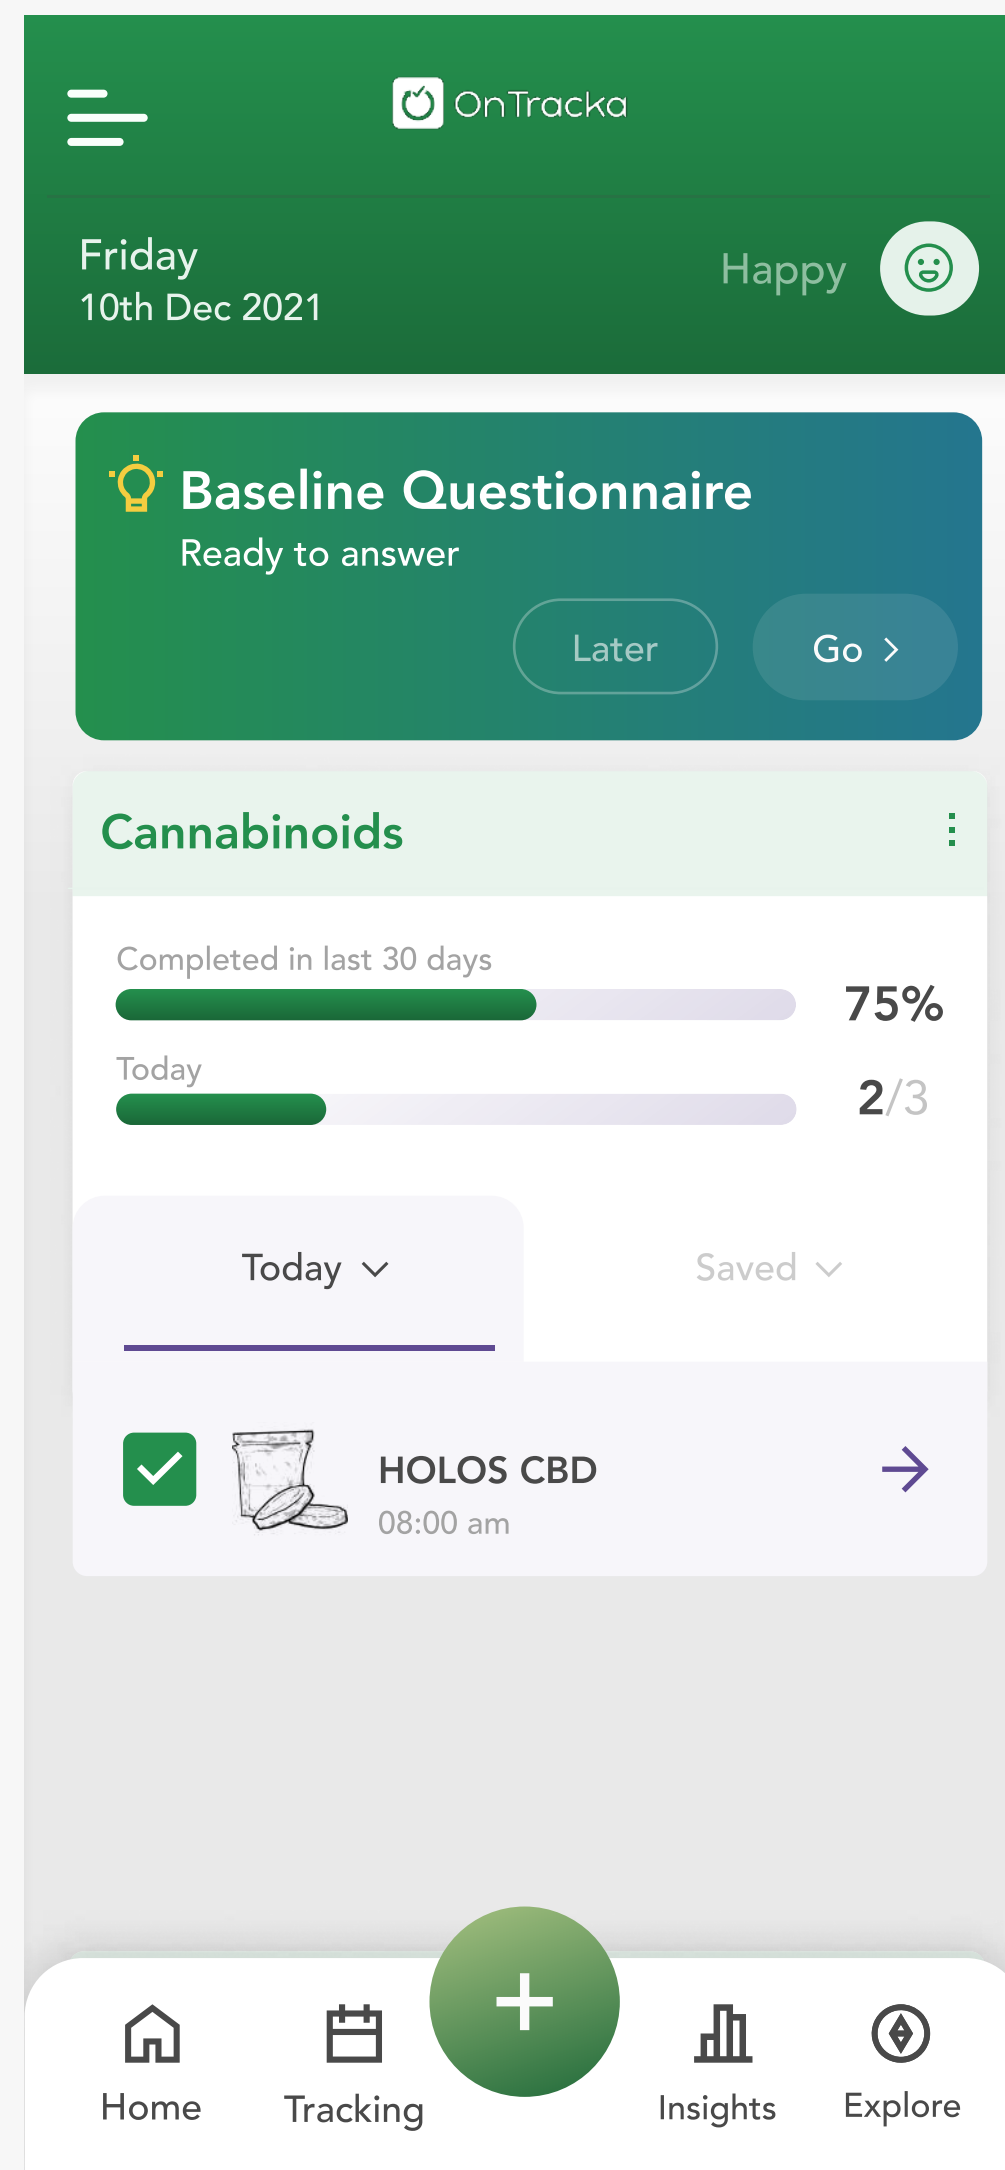

Registration, onboarding & consent finished

Part 2

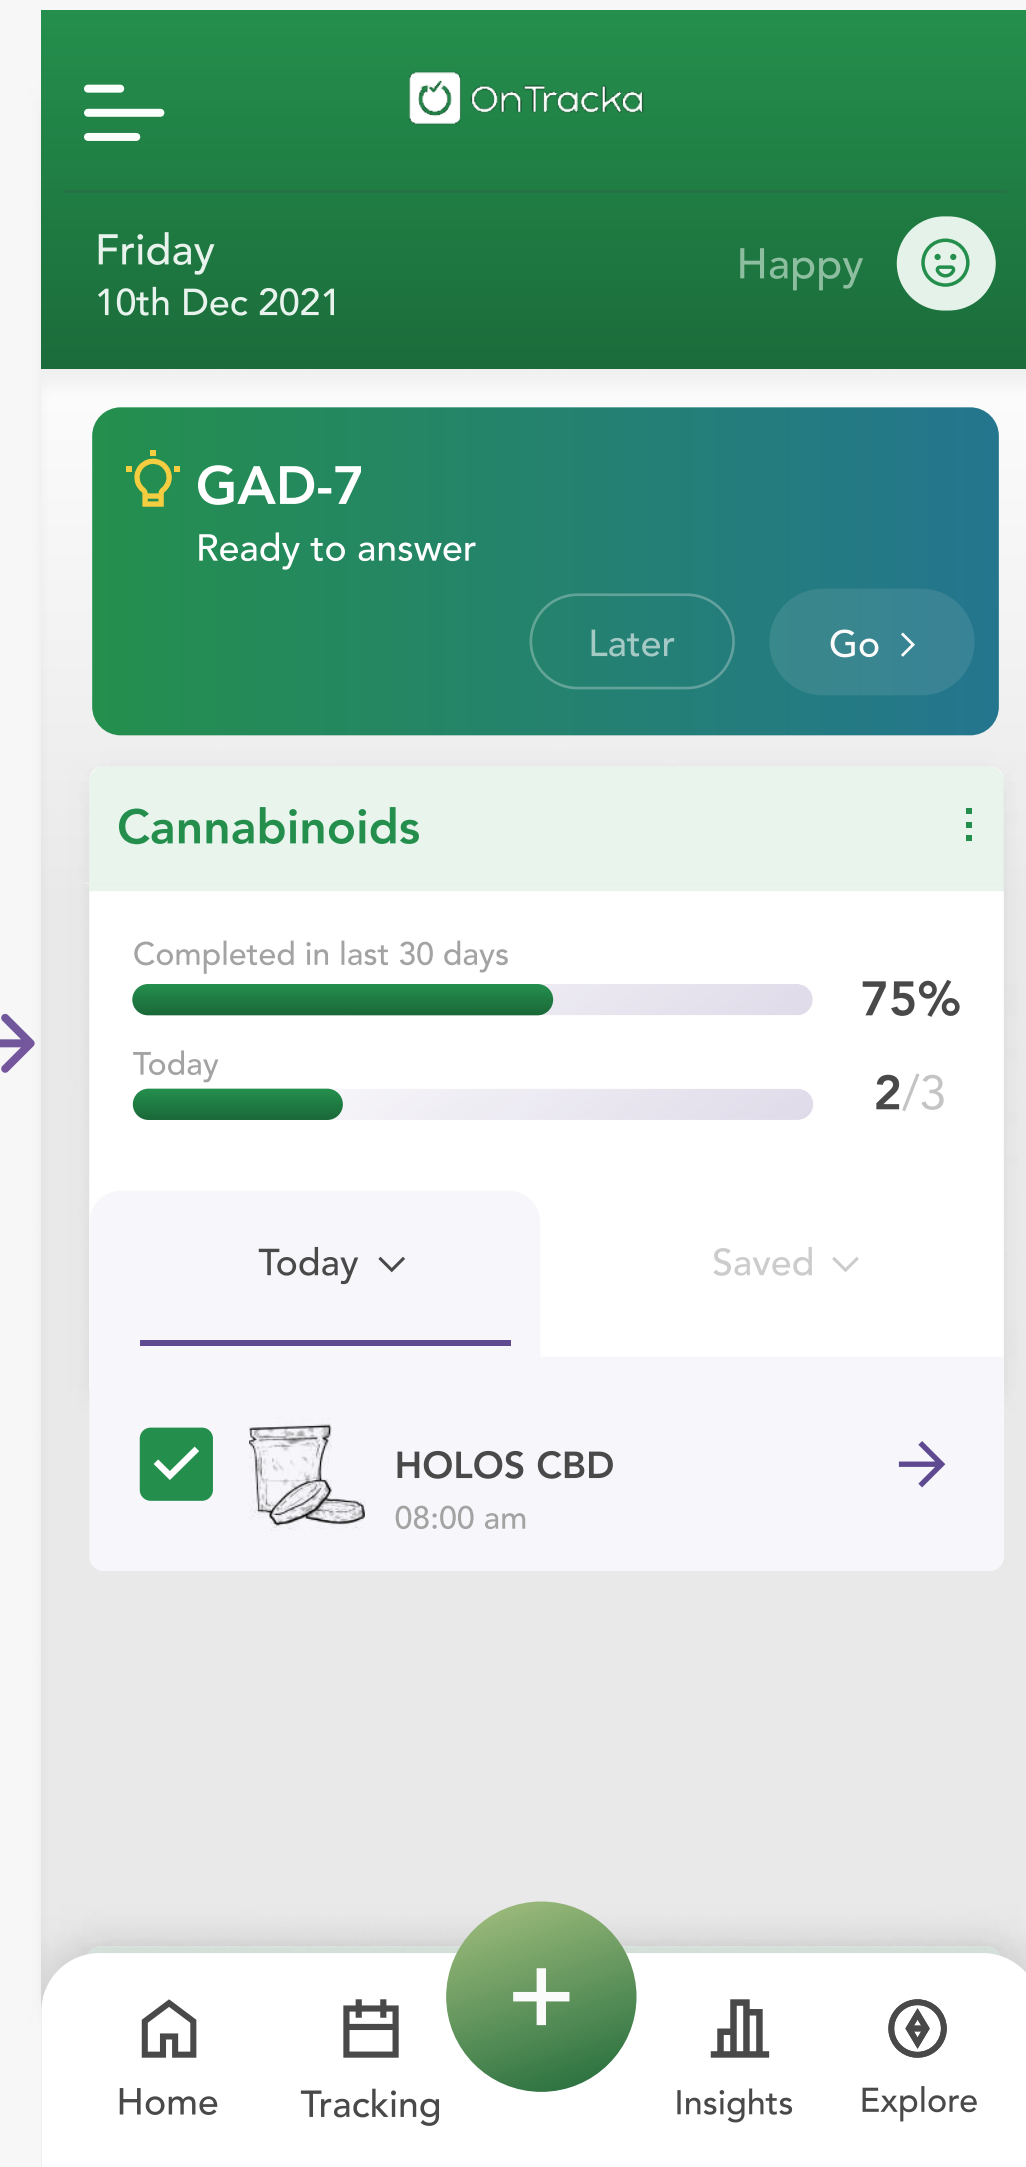

Completing the study questionnaires

 < 3 minutes

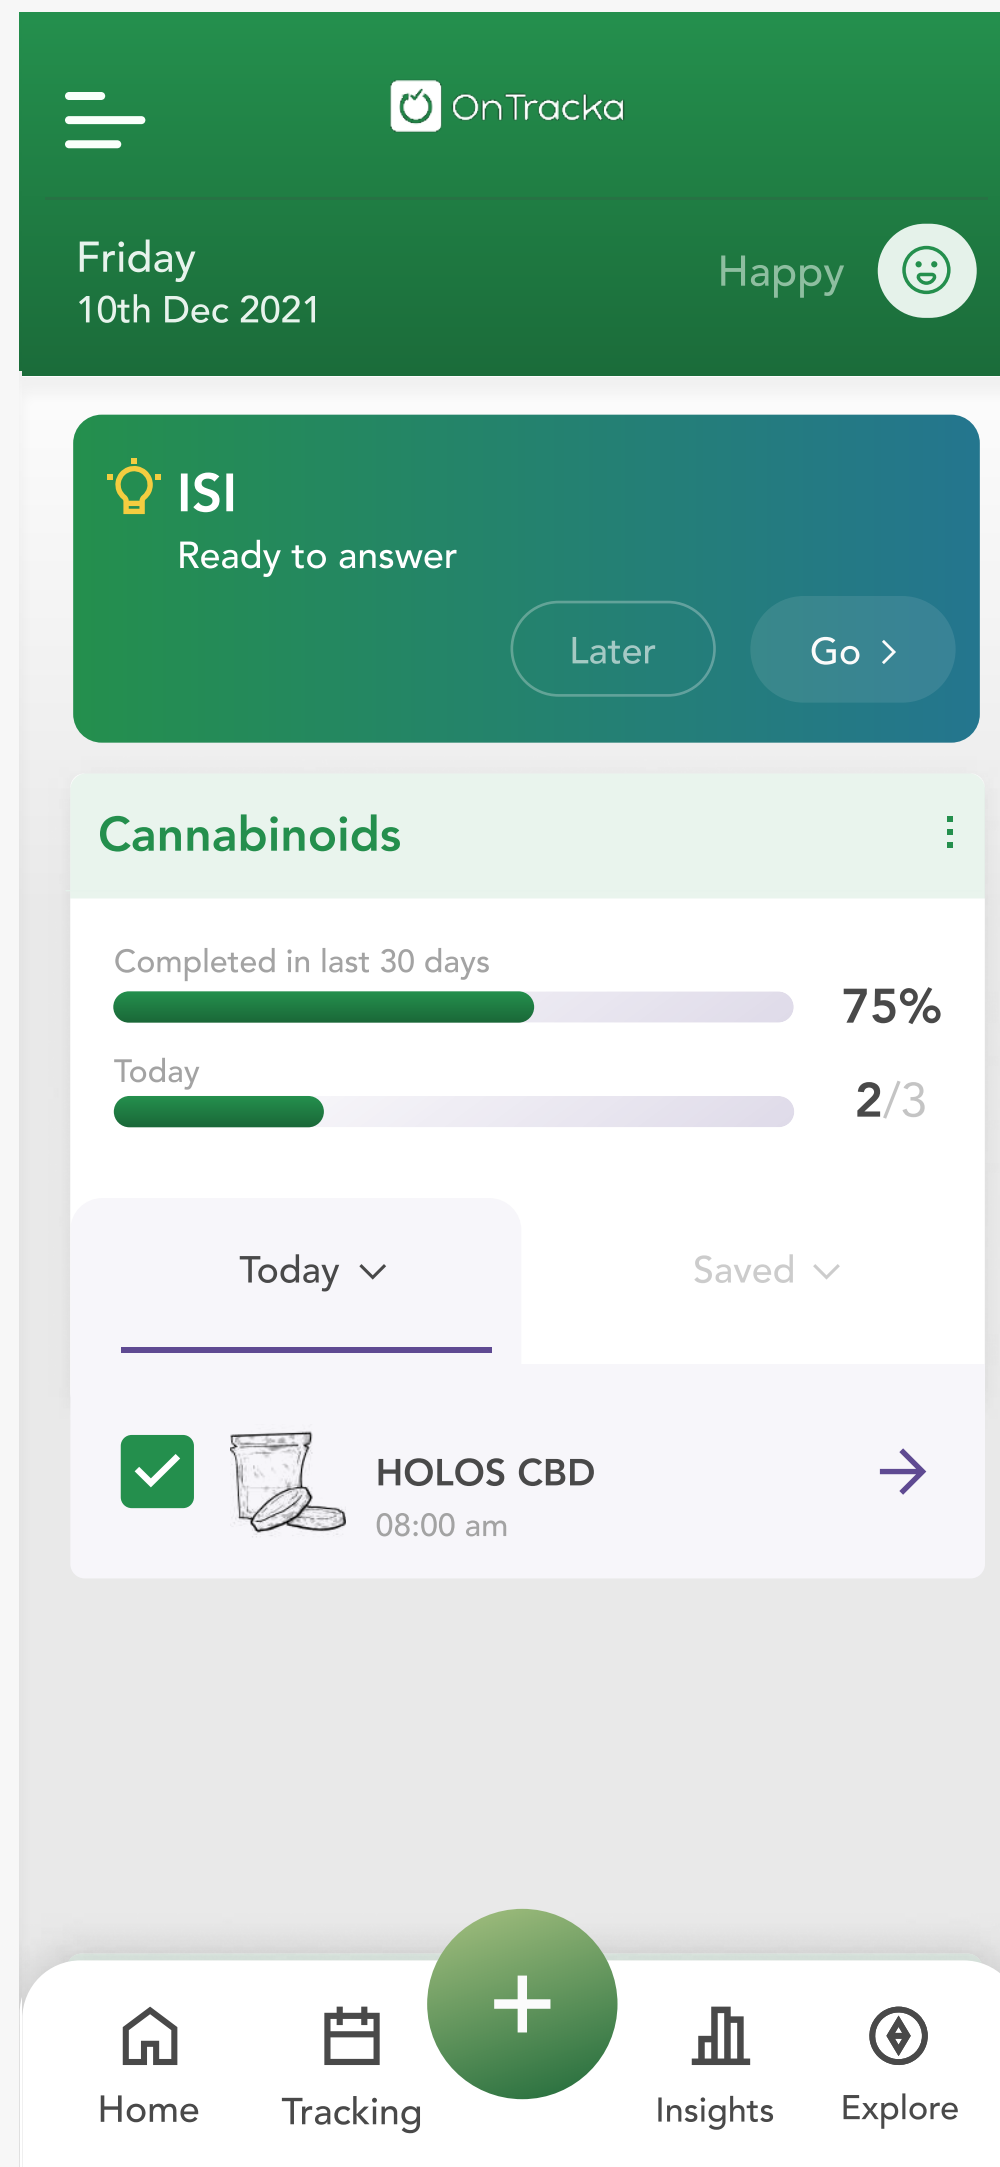

Completing the study (part one)

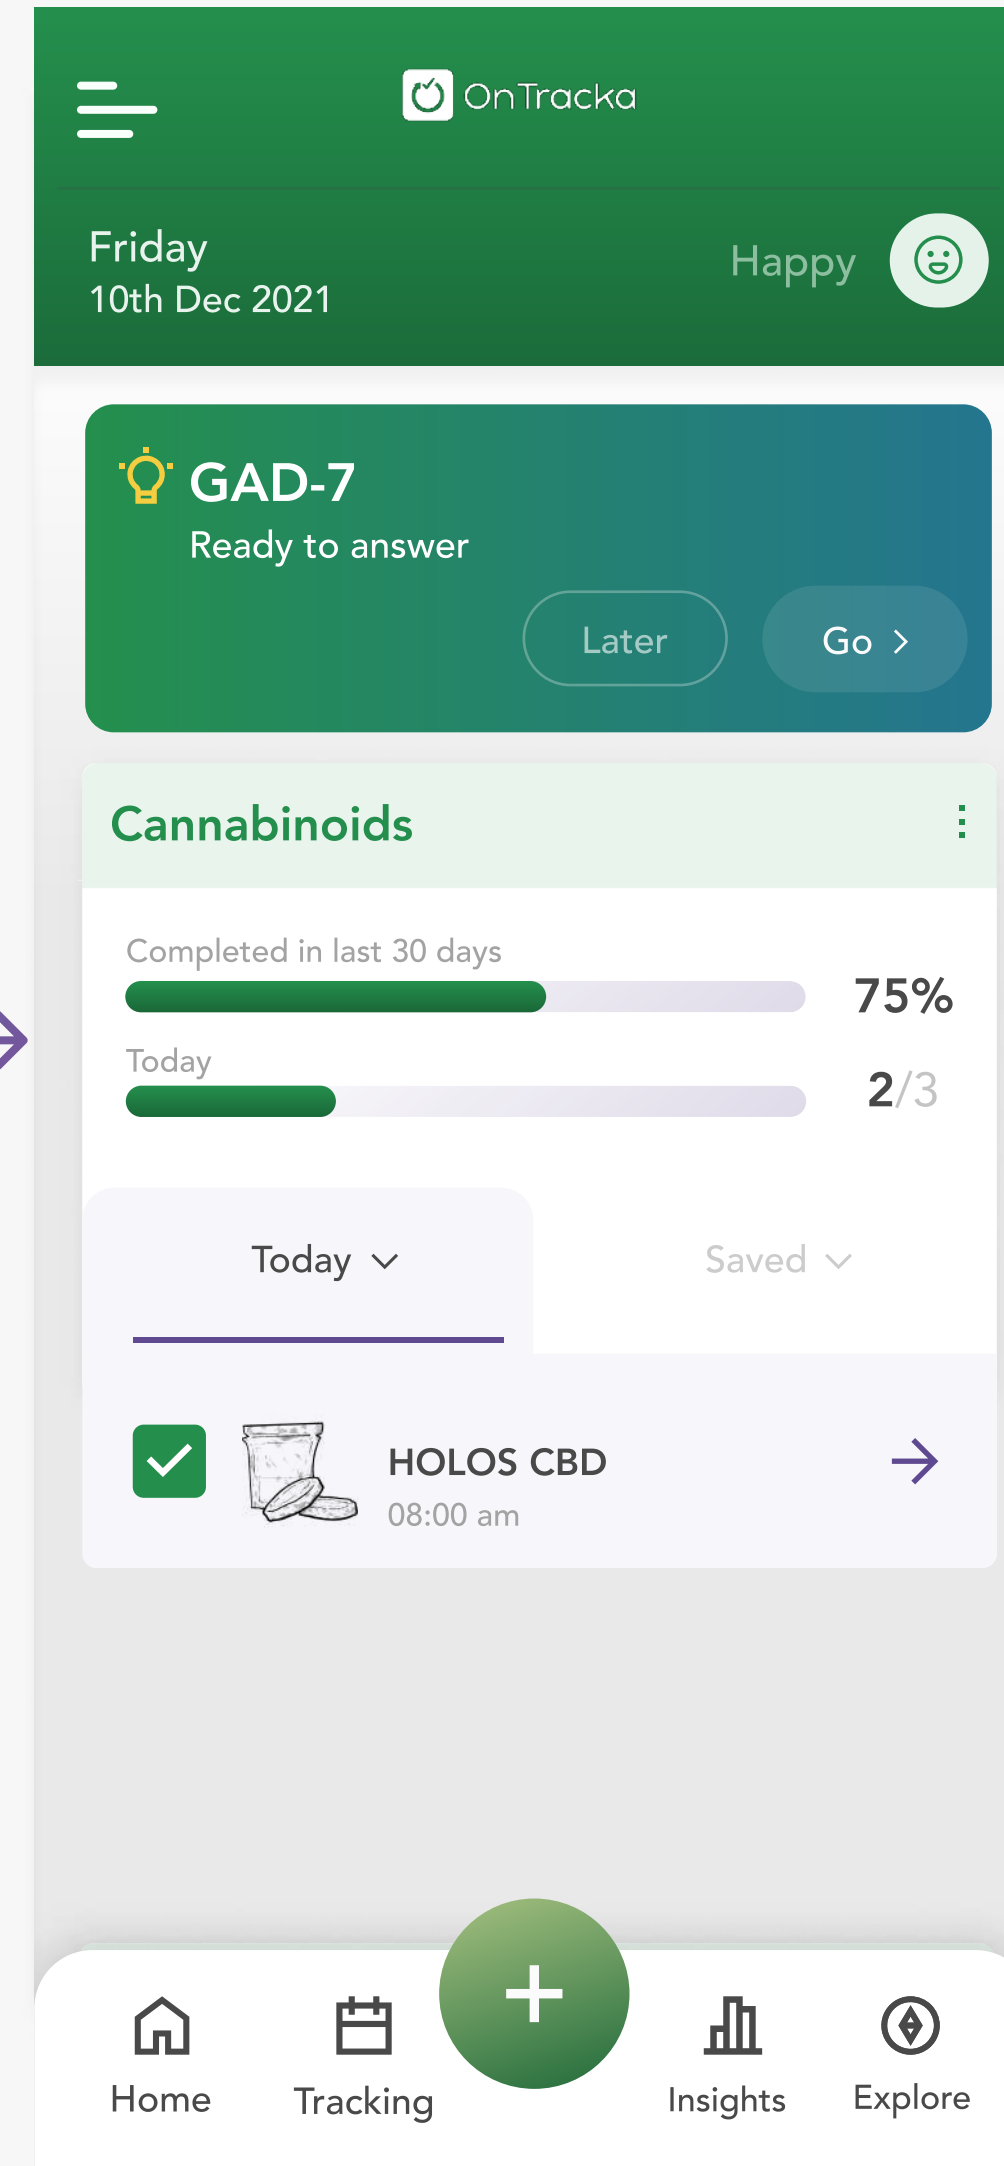

Tapping "Go" will take you into questions that you and other patients are anonymously completing to help move Cannabis Medicine forward.

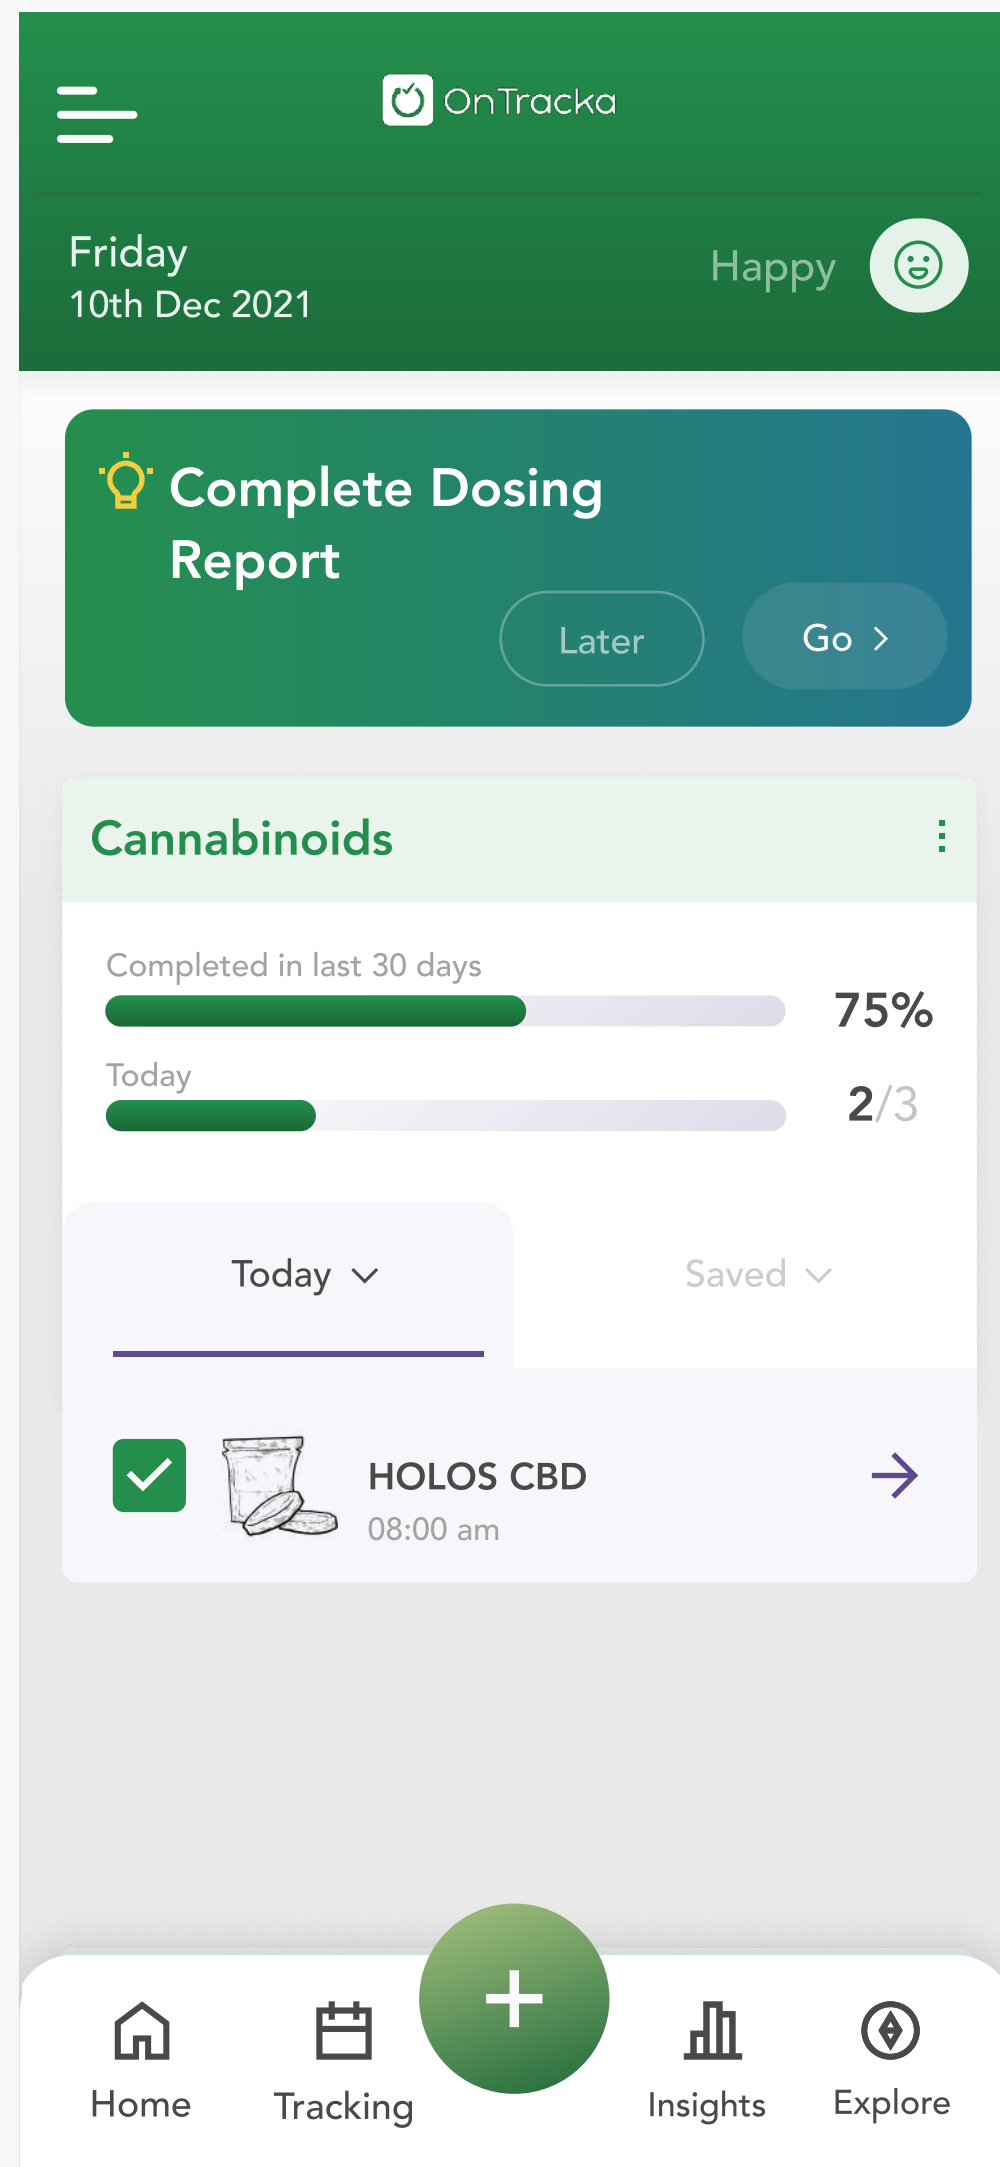

Completing the study (part two)

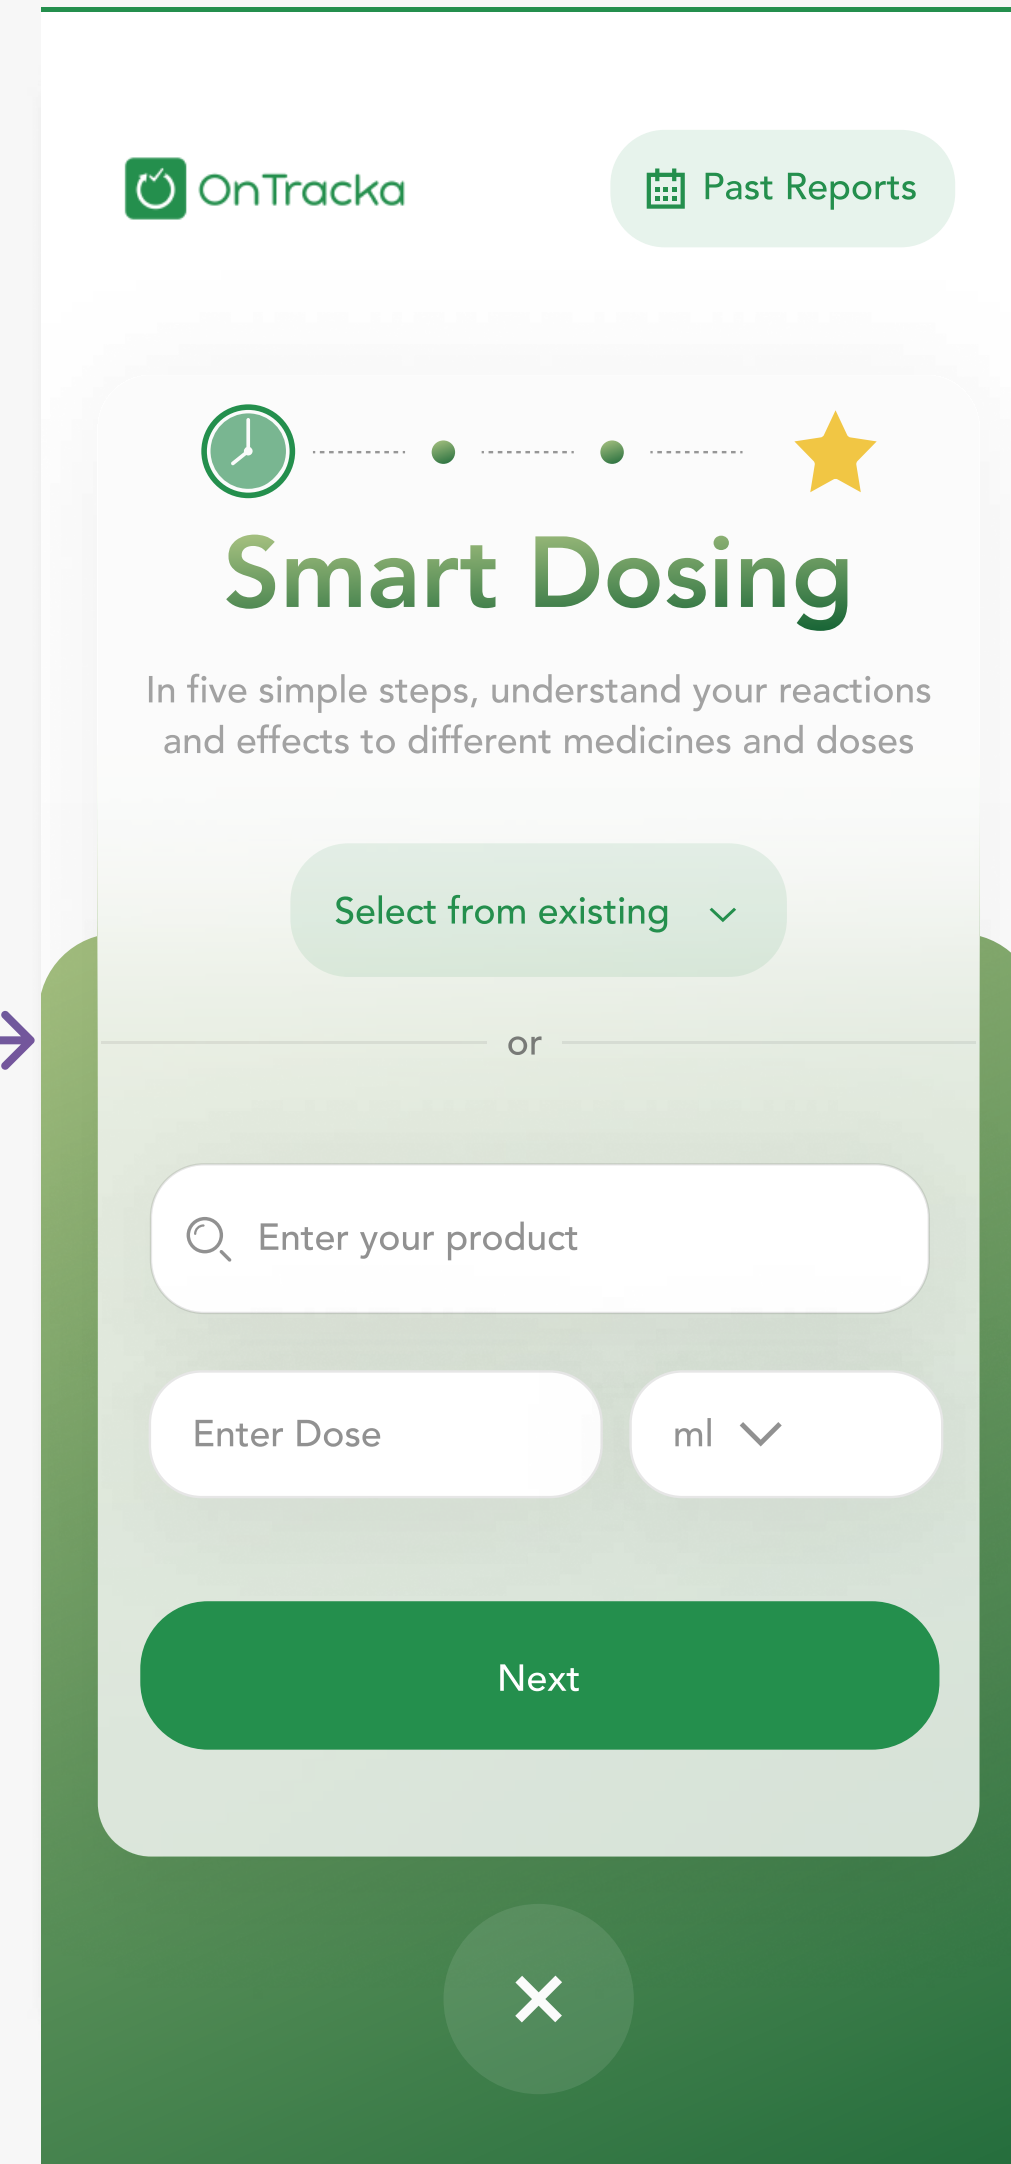

In total, you have the initial baseline questions and then three other scientific questionnaires to complete

Completing the study (part three)

Tapping "Go" when preparing to consume your Cannabis Prescription will guide you through this process that gives you a surprise at the end.

Part 3

Study Schedule

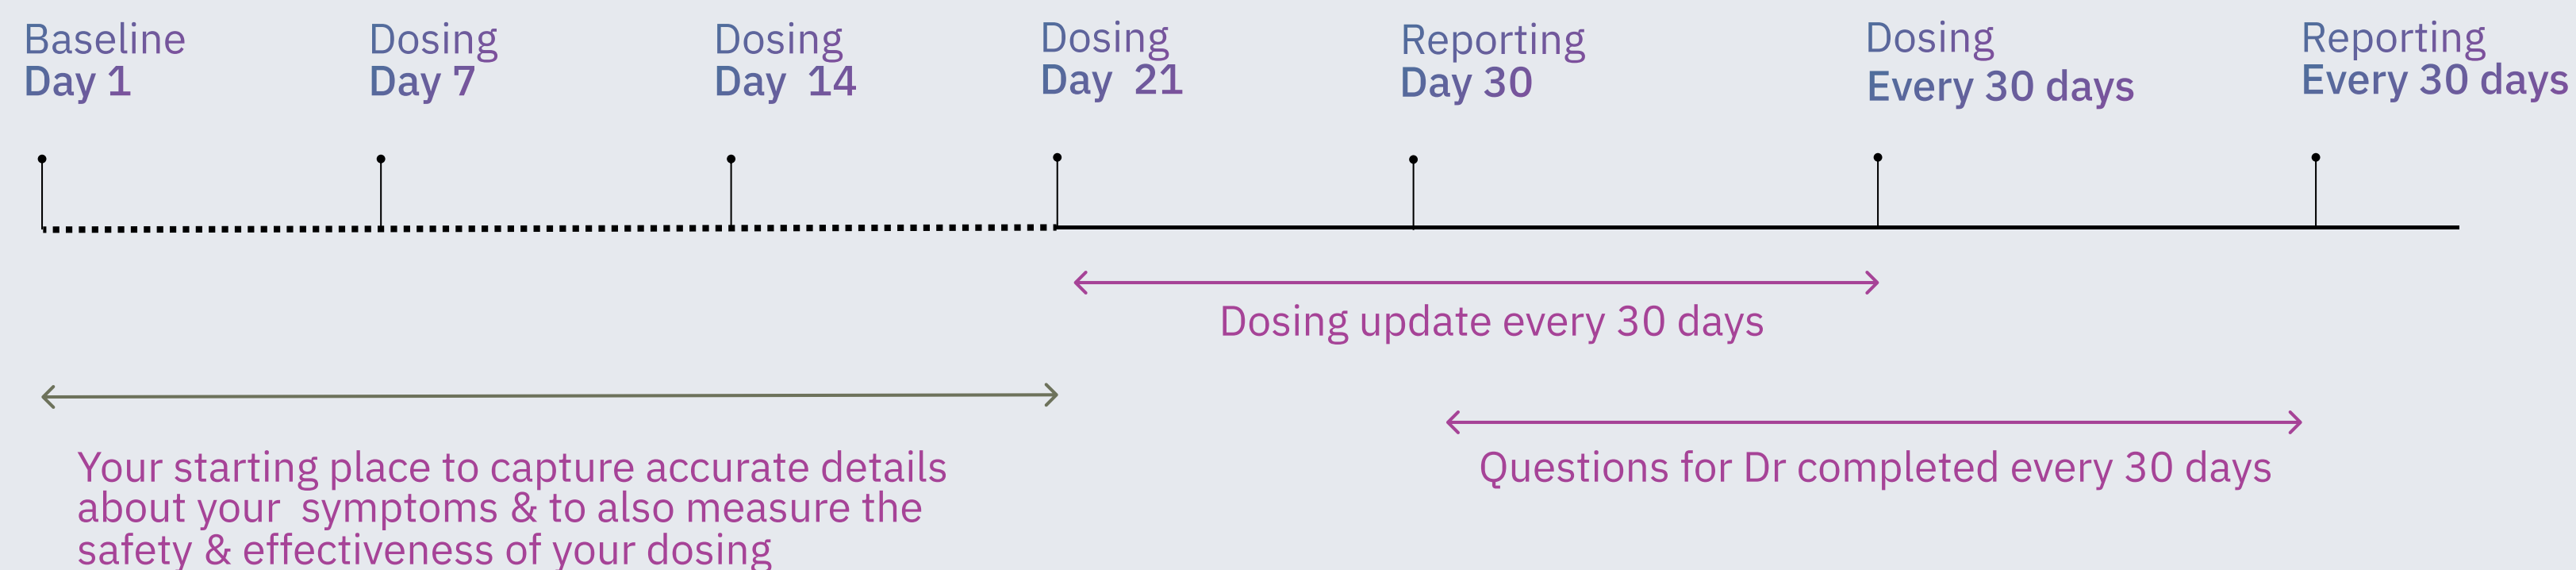

Complete every 3 months
(takes less than 3 minutes)

Schedule

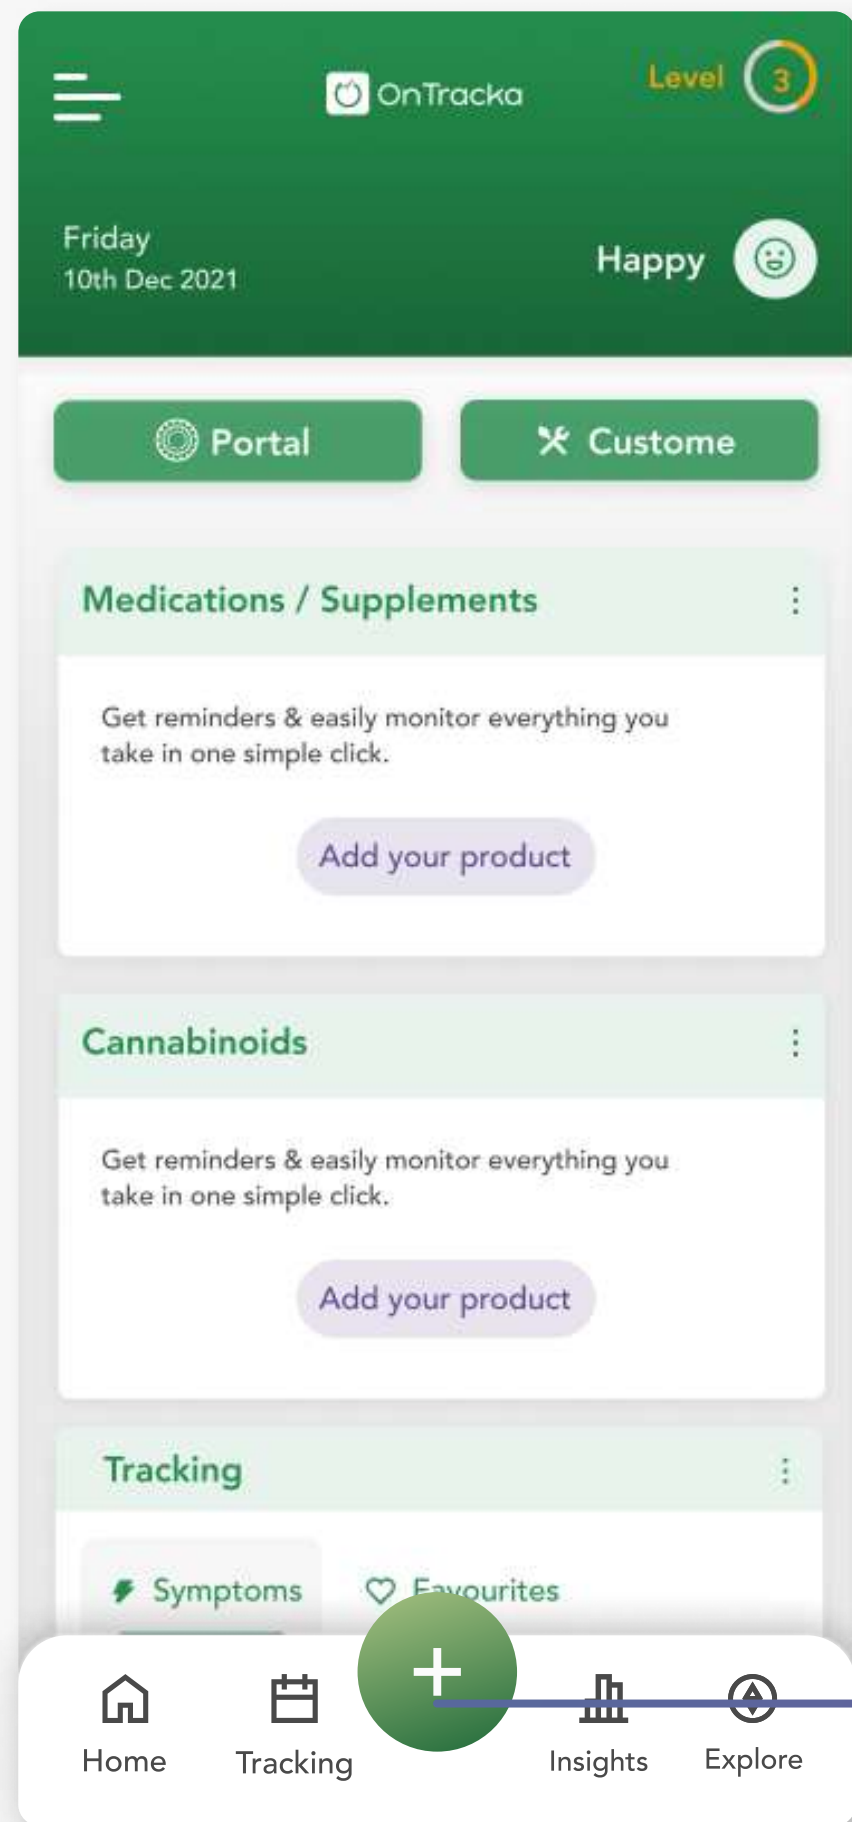

- Your questionnaires will arrive in your OnTracka when you download the app, after one month and then every 90 days.
- When questionnaires arrive on your app, you have 3 days to complete these questions.
- If you need further help with your life, you can request support by talking to the team at Vivace Health.

Visual Guide

Part 4
Staying on track
(optional)

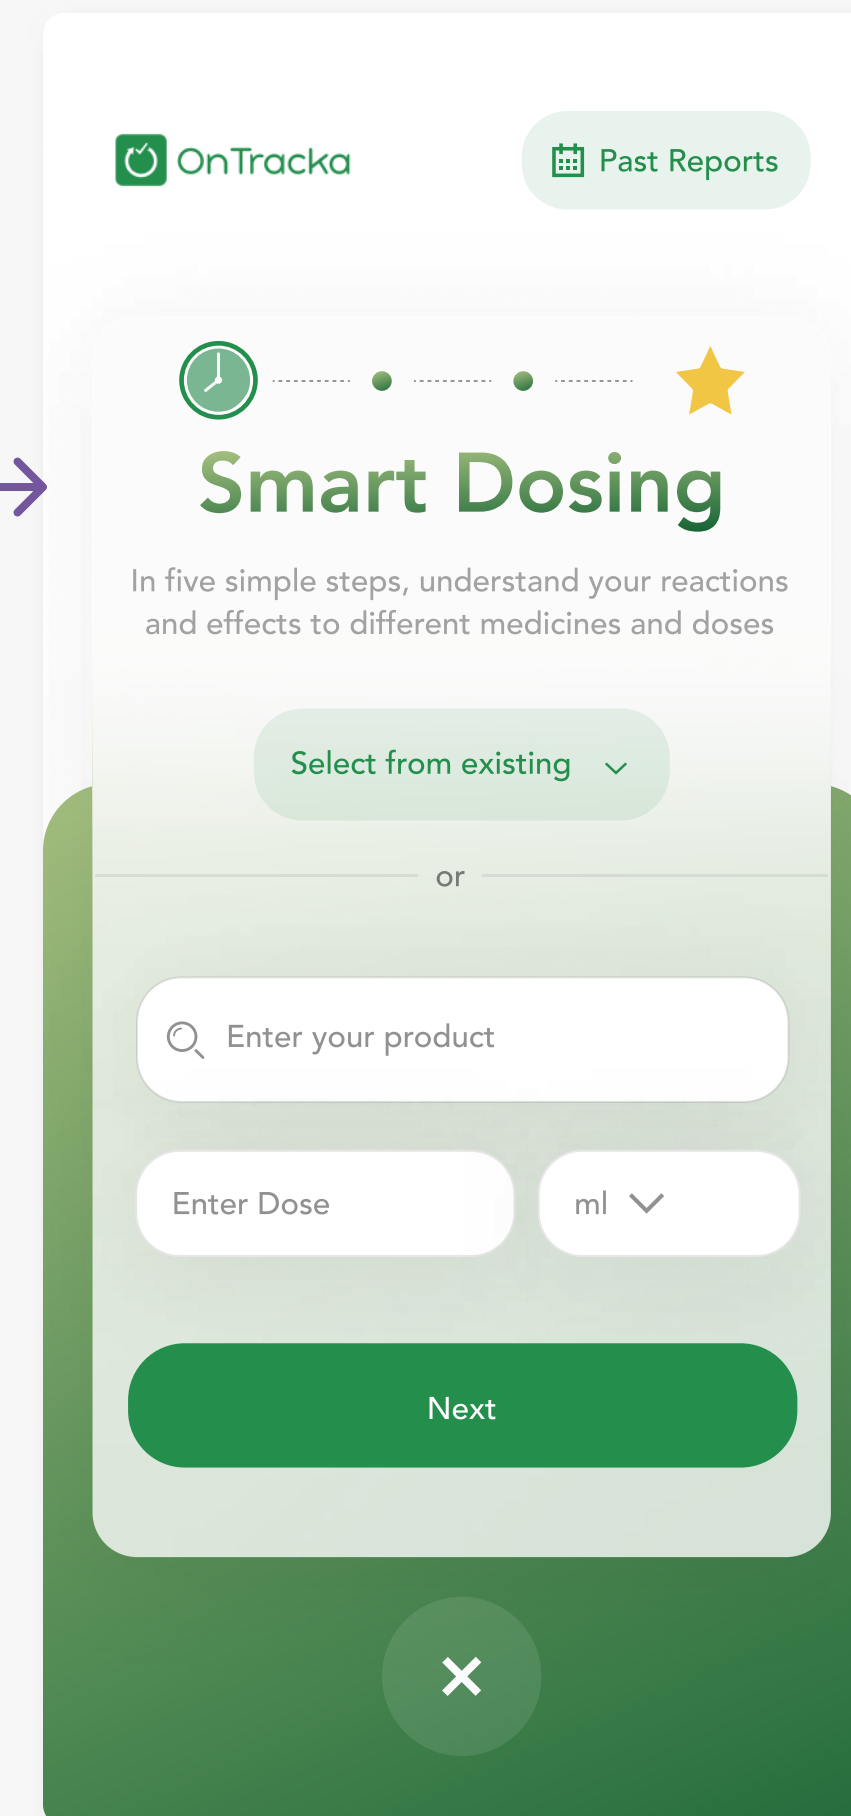

Staying on track throughout reporting periods

1 Never forget to take your Cannabis or other medications with this simple tool for you.

2 Track your symptoms or experiences to know how you are feeling and what makes you feel better.

3 Know how your Cannabis or other medications impact you through a quick & simple process.

**For any additional support or to ask questions,
